

I'm writing concerning the radio stations at risk due to possible law changes. The station I listen to is K-LOVE heard nationally and worldwide through internet access. I have been blessed beyond words both while and because of listening to them. K-LOVE has a heart that reaches out into it's listener community and touches each listener personally. I believe that taking this station off of the air will prevent K-LOVE from bringing people to a safe place. I've heard stories about peoples lives being litterally saved because of what they've heard. We have enough lost souls in this world as it is. I truely believe that taking K-LOVE off of the air would have a grave impact on would be listeners. It will have a sad one for those of us already.

Thank you for your time.

Regards,

Shuree Fluty
